(COURSE TUTOR)

SONIA PAL (BSC MSc)  
(COURSE CO-ORDINATOR)

7 hours CPD

## Botulinum Toxin Level 2 (Full face, neck & hyperhidrosis)

This document is to certify that the recipient has attended the BTX Level 2 course and is accredited with 7 hours CPD.

### Aims and objectives of this course:

- The history of Botulinum Toxin and its common uses in medicine
- Pharmacology and Toxicology
- Anatomy and physiology: A global approach to treatment
- The consultation: From assessment to post-operative advice and treatment indications
- Patient management: Expectations and contra indications
- Obtaining valid consent
- VAT implications for cosmetic procedures
- How to achieve safe and predictable outcomes
- Complication management and indemnity information
- Patient preparation & product information
- Dr Bob Khanna's injection concepts & techniques
- Hands on practical session: Full forehead including the periorbital region, intra-oral (gummy smile), lower face, neck and underarms (treatment for hyperhidrosis)
- Marketing: How to market a POM legally
- How to get started and maintain a successful career in the world of Facial Aesthetics

### Learning outcomes:

- Delegates have the confidence to assess and consult their patients efficaciously
- Delegates have gained knowledge of the protocols & procedures surrounding BTX
- Delegates have an understanding of how to adequately treat patients safely and effectively

### Development Outcomes for GDC Registrants:
